

Sussex Summer run

Tues 18th July 2006

Pease Pottage to the Fountain at Ashurst

Guidelines

First off :- The boring bit. All pretty obvious really and this is by no means a lecture, just guidelines as we are only a casual drive and this is open to any member of *SELOC* to attend. We have no special rights on the road and you all drive under your own insurance and **you are liable for your own actions**. Also, you come along at your own risk. However, the event is authorised by the **Motor Sport Association** (permit number: **36149**) which means we will be covered by the MSA's 3rd party public liability insurance. **This requires that all drivers and passengers sign-on for the event on the day.** Forms will be provided.

Obviously, I have no responsibility over those who come along and subsequently it is not my place to dictate how other people behave or drive.

However, we wish to enlist the support of the residents of the towns which we visit and enjoy, so as a courtesy to the rest of us, those who don't wish to accept the following guidelines as they are intended (e.g. a matter of safe and courteous driving for the benefit of everyone) then I think I'm quite safe in saying that most people would rather you didn't join in with the rest of the group. **Alternatively please feel free to enjoy this route on a different day.**

- 1.) This is not a race.
 - 2.) This is not a timed event.
 - 3.) The route included here is only a proposed route for the benefit of those not familiar with the area.
 - 4.) In no way do those who suggesting this run condone speeding or dangerous driving in any way.
 - 5.) The intention of this meeting is a casual opportunity to meet other Lotus owners and to see countryside and roads you would not otherwise have encountered. That's all.
 - 6.) When travelling along the proposed route, please be considerate of residents and respectful of their wishes.
-

- 7.) If another motorist lets a group of Lotus owners pass, please give an acknowledgement of thanks. They have just as much right to use the roads as we do. *(Also, in that way we are something of a spectacle that chose their town, rather than a nuisance that just arrived)*
- 8.) Please be considerate of noise levels. (I know! Those that have heard my car will treat this as a case will treat this as a case of the pot calling the kettle black, but I really do try to keep the noise down in built-up areas.)
- 9.) Please feel free to stop and enjoy the scenery.
- 10.) If using the proposed route, please read the directions prior to setting off. Don't read and drive.
- 11.) Those travelling without a passenger, please pull over in order to refer to directions. *(Do not attempt to read the directions while driving)*
- 12.) Please drive your car safely and within your own limits of experience.
- 13.) Never drive faster than the speed limit **OR** the speed that you are comfortable driving at.
- 14.) Do not accelerate through a corner if your total stopping distance is beyond your range of vision.
- 15.) It's great fun to follow other Loti down country roads. But do not ever forget that most of us are just people with fast cars and a driving license. However, you may well be following someone who is much much more than that. But please bear in mind that matching their speed and line through bends in the road will NOT teach you the limits of your car or how to drive or guarantee that you will exit the corner in the same way, if at all. Braking, acceleration, tyres, road conditions are only some of the factors involved. The only thing which will guarantee a safe enjoyable run is to drive within the speed limits and your own experience at all times and in a well maintained car.
- 16.) Drive how you drive and do not be intimidated to speed up.
- 17.) There are no prizes for arriving at the stop first.
- 18.) Watch out for wildlife, cyclists, pedestrians and people on horseback. *(As a cyclist myself, I know how intimidating the sound alone of a quickly driven car approaching on a mall lane can be. Also, this year, there seem to be huge numbers of rabbits in the Sussex countryside and early morning seems to be one of their favourite times to enjoy the roads – you have been warned.)*
- 19.) If you wish to overtake. Please do so **ONLY** when you can **SEE** and **KNOW** you can do so safely. Please do not overtake just because someone in front did and you don't want to be left behind. If you are lost, please text my mobile for directions. I will call you back and attempt to talk you in.
- 20.) Always remember that you are responsible for your own safety. Just because the guy in front does something, it doesn't mean that it's safe for you to do the same. **THINK FOR YOURSELF** and don't just become a passenger to 'group think.'

Above all, please do what you can to ensure that everyone on the run has the most enjoyable and safest day possible.
